

# Contents

## Nuclear I&C

- Approach to diagnosing multiple abnormal events with single-event training data  
*Ji Hyeon Shin, Seung Gyu Cho, Seo Ryong Koo, and Seung Jun Lee* ..... 558
- Simulation-based analysis of total ionizing dose effects on low noise amplifier for wireless communications  
*Gandha Satria Adi, Dong-Seok Kim, and Inyong Kwon*..... 568
- Analysis of fluctuations in ex-core neutron detector signal in Krško NPP during an earthquake  
*Tanja Goričaneč, Andrej Kavčič, Marjan Kromar, and Luka Snoj*..... 575

## Nuclear Fuel Cycle and Radioactive Waste Management

- Data analysis of simulated fuel-loaded sea transportation tests under normal conditions of transport  
*JaeHoon Lim and Woo-seok Choi*..... 375
- The exploration of U(VI) concentration improvement in carbonate medium for alkaline reprocessing process  
*Chenxi Hou, Mingjian He, Meng Zhang, Haofan Fang, Hui He, and Caishan Jiao*..... 419
- Mechanical and elastic properties of vitrified radioactive wastes using ultrasonic technique  
*Sema Akyil Erenturk, Filiz Gur, and Mahmoud A.A. Aslani*..... 472
- An extensive characterization of xenon isotopic activity ratios from nuclear explosion and nuclear reactors in neighboring countries of South Korea  
*Ser Gi Hong, Geon Hee Park, Sang Woo Kim, and Yu Yeon Cho*..... 601

## Nuclear Fuel and Reactor Materials

- A model for calculating the irradiation swelling of AgInCd absorber in nuclear control rods  
*Hongsheng Chen, Hongxing Xiao, Chongsheng Long, and Xuesong Leng* ..... 552
- Irradiation damage and recovery in gold-coated fiber optics  
*Jacy K. Conrad and Michael E. Woods*..... 685
- Development and testing of the hydrogen behavior tool for Falcon – HYPE  
*Piotr Konarski, Cedric Cozzo, Grigori Khvostov, and Hakim Ferroukhi*..... 728

## Nuclear Policy, Economics, and Human Resource Development

- A study on security oversight framework for Korean Nuclear Facility regulations  
*So Eun Shin, Heung Gyu Park, Ha Neul Na, Young Suk Bang, and Yong Suk Lee* ..... 426

## Nuclear Physics, Fusion, and Laser Technology

- Determination of the number of  $^{235}\text{U}$  target nuclei in the irregular target using a fission time projection chamber  
*Jiajun Zhang, Jun Xiao, Junjie Sun, Mingzhi Zhang, Taiping Peng, and Pu Zheng* ..... 444
- Conceptual design and analysis of remote steering system for CFETR ECRH system  
*Chao Zhang, Xiaojie Wang, Dajun Wu, Yunying Tang, Hanlin Wang, Dingzhen Li, Fukun Liu, Muquan Wu, Peiguang Yan, Xiang Gao, and Jiangang Li*..... 451
- Experimental and simulation study on the backstreaming positive ions on the quarter-size negative ion source for CRAFT NNBI test facility  
*Yongjian Xu, Yuwen Yang, Jianglong Wei, Ling Yu, Wen Deng, Rixin Wang, Yuming Gu, Chundong Hu, and Yahong Xie* ..... 546

# Contents

## Nuclear Structural Analysis /Plant Management & Maintenance

- High-fidelity numerical investigation on structural integrity of SFR fuel cladding during design basis events  
Seo-Yoon Choi, Hyung-Kyu Kim, Min-Seop Song, and Jae-Ho Jeong ..... 359
- A review on the risk, prevention and control of cooling water intake blockage in coastal nuclear power plants  
Heshan Lin, Shuyi Zhang, Ranran Cao, Shihao Yu, Wei Bai, Rongyong Zhang, Jia Yang, Li Dai,  
Jianxin Chen, Yu Zhang, Hongni Xu, Kun Liu, and Xinke Zhang ..... 389
- Achieving wetting in molten lead for ultrasonic applications  
Jonathan Hawes, Jordan Knapp, Robert Burrows, Robert Montague, Jeff Arndt, and Steve Walters ..... 437
- Experimental investigation and design method of the general anchorage zone in the ring beam of  
prestressed concrete containment vessels  
Chang Wu, Tao Chen, Yanli Su, Tianyun Lan, and Shaoping Meng ..... 485
- Research on the cable-driven endoscopic manipulator for fusion reactors  
Guodong Qin, Yong Cheng, Aihong Ji, Hongtao Pan, Yang Yang, Zhixin Yao, and Yuntao Song..... 498
- Residual stress distribution analysis in a J-groove dissimilar metal welded component of a reactor vessel  
bottom head using simulation and experiment  
Dong-Hyun Ahn, Jong Yeon Lee, Min-Jae Choi, Jong Min Kim, Sung-Woo Kim, and Wanchuck Woo ..... 506
- A review of chloride induced stress corrosion cracking characterization in austenitic stainless steels  
using acoustic emission technique  
Suresh Nuthalapati, K.E. Kee, Srinivasa Rao Pedapati, and Khairulazhar Jumbri ..... 688

## Nuclear Safety

- Effect of test-caused degradation on the unavailability of standby safety components  
S. Parsaei, A. Pirouzmmand, M.R. Nematollahi, A. Ahmadi, and K. Hadad..... 526
- An analytical model to decompose mass transfer and chemical process contributions to molecular  
iodine release from aqueous phase under severe accident conditions  
Giedre Zablackaite, Hiroyuki Shiotsu, Kentaro Kido, and Tomoyuki Sugiyama ..... 536
- Study on dryout heat flux of axial stratified debris bed under top-flooding  
Wenbin Zou, Lili Tong, and Xuewu Cao ..... 636
- Multihazard capacity optimization of an NPP using a multi-objective genetic algorithm and sampling-  
based PSA  
Eujeong Choi, Shinyoung Kwag, and Daegi Hahm ..... 644

## Radiation Application

- Neutron irradiation impact on structural and electrical properties of polycrystalline  $Al_2O_3$   
Sunil Kumar, Sejal Shah, S. Vala, M. Abhangi, and A. Chakraborty ..... 402
- A high-density gamma white spots-Gaussian mixture noise removal method for neutron images  
denoising based on Swin Transformer UNet and Monte Carlo calculation  
Di Zhang, Guomin Sun, Zihui Yang, and Jie Yu ..... 715
- Gamma/neutron classification with SiPM CLYC detectors using frequency-domain analysis for  
embedded real-time applications  
Iván René Morales, Maria Liz Crespo, Mladen Bogovac, Andres Cicuttin, Kalliopi Kanaki, and Sergio Carrato ..... 745
- Neutron dosimetry with a pair of TLDs for the Elekta Precise medical linac and the evaluation of  
optimum moderator thickness for the conversion of fast to thermal neutrons  
Marziyeh Behmadi, Sara Mohammadi, Mohammad Ehsan Ravari, Aghil Mohammadi,  
Mahdy Ebrahimi Loushab, Mohammad Taghi Bahreyni Toossi, and Mitra Ghergherehchi ..... 753

# Contents

---

## Radiation protection

- Characterization and experimental investigation for gamma-ray shielding competence of basalt-doped polyethylene nanocomposites  
I.A. El-Mesady, F.I. El-Agawany, H. El-Samman, Y.S. Rammah, A. Hussein, and R.A. Elsad ..... 477
- Study on multi-objective optimization method for radiation shield design of nuclear reactors  
Yao Wu, Bin Liu, Xiaowei Su, Songqian Tang, Mingfei Yan, and Liangming Pan ..... 520
- Novel bricks based lightweight Vietnam's white clay minerals for gamma ray shielding purposes: An extensive experimental study  
Ta Van Thuong, O.L. Tashlykov, and K.A. Mahmoud ..... 666
- Assessment of radioactivity levels and radiation hazards in building materials in Egypt  
Ahmed E. Abdel Gawad, Mohamed Y. Hanfi, Mostafa N. Tawfik, Mohammed S. Alqahtani, and Hamed I. Mira ..... 707

## Reactor Physics

- Modelling atomic relaxation and bremsstrahlung in the deterministic code STREAM  
Nhan Nguyen Trong Mai, Kyeongwon Kim, and Deokjung Lee ..... 673

## Thermal Hydraulics

- Numerical simulation and experimental study of quasi-periodic large-scale vortex structures in rod bundle lattices  
Yi Liao, Songyang Ma, Hongguang Xiao, Wenzhen Chen, Kehan Ouyang, Zehua Guo, and Lele Song ..... 410
- Experimental investigation on heat transfer of nitrogen flowing in a circular tube  
Chenglong Wang, Yuliang Fang, Wenxi Tian, Guanghui Su, and Suizheng Qiu ..... 463
- Analyses of International Standard Problem ISP-47 TOSQAN experiment with containmentFOAM  
Myeong-Seon Chae, Stephan Kelm, and Domenico Paladino ..... 611
- Parametric study of population balance model on the DEBORA flow boiling experiment  
Aljoša Gajšek, Matej Tekavčič, and Boštjan Končar ..... 624
- Effect of inlet throttling on thermohydraulic instability in a large scale water-based RCCS: An experimental study  
Qiuping Lv, Matthew Jasica, Darius Lisowski, Zhiee Jhia Ooi, Rui Hu, and Mitch Farmer ..... 655
- Uncertainty analysis of heat transfer of TMSR-SF0 simulator  
Jiajun Wang, Ye Dai, Yang Zou, and Hongjie Xu ..... 762

## Corrigendum

- Corrigendum to “Statistical analysis of effects of test conditions on compressive strength of cement solidified radioactive waste” [Nucl. Eng. Technol. 55 (2023) 882]  
Hyeongjin Byeon and Jaeyeon Park ..... 770
