

Reference: Opportunity for students from the Nuclear Energy Agency (NEA)

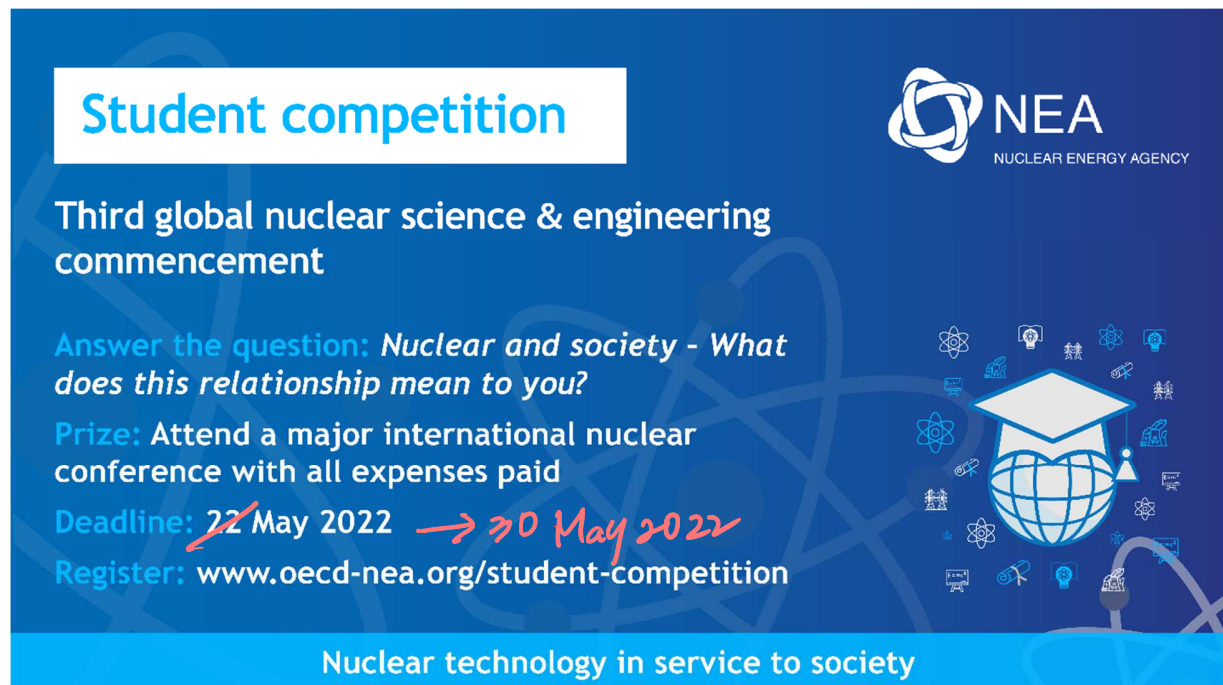

The NEA will be hosting the *Third Annual Global Commencement for Nuclear Engineering and Related Sciences* (Please find the registration link [here](#)) on *June 29 at 14:30 CEST*. This event is an occasion to celebrate the accomplishments of the students of nuclear sciences and engineering.

In addition to this online commencement, this year will feature the first edition of the **NEA Global Commencement Student Competition**. The competition gives students the opportunity to send in a short submission, in any form, answering the question “The relationship between nuclear and society: what does it mean to you?” The **competition deadline is 30 May 2022 (one week extension)** and the winner selected will be granted the opportunity to attend an all-expenses paid trip to a nuclear-related conference.

With this in mind, we would like to offer all students the opportunity to apply and would greatly appreciate if you circulated the announcement and graphic listed below to relevant student networks. We greatly appreciate your help!

Should you have any questions, please feel free to send them to globalforum@oecd-nea.org.

The competition closes on **30th May 2022, 23:59 CEST Paris time**. Details about the competition and how to participate can be found [here](#).

The poster is for the 'Student competition' organized by the Nuclear Energy Agency (NEA). It features a blue background with a white box at the top left containing the title 'Student competition'. To the right is the NEA logo. The main text describes the 'Third global nuclear science & engineering commencement' and asks students to answer the question: 'Nuclear and society - What does this relationship mean to you?'. It lists the prize as attending a major international nuclear conference with all expenses paid. The deadline is noted as 22 May 2022, but with a handwritten red correction to 30 May 2022. The registration link is provided as www.oecd-nea.org/student-competition. The bottom of the poster has a light blue banner with the text 'Nuclear technology in service to society'. On the right side, there is a graphic of a graduation cap over a globe, surrounded by various icons representing nuclear science and technology.
