## Original Articles

### Nuclear Fuel and Reactor Materials

- Front-end investigations of the coated particles of nuclear fuel samples – ion polishing method  
Zuzanna M. Krajewska, Tomasz Buchwald, Tomasz Tokarski, and Wacław Gudowski .....1935
- Effect of surface quality on hydrogen/helium irradiation behavior in tungsten  
Hongyu Chen, Qiu Xu, Jiahuan Wang, Peng Li, Julong Yuan, Binghai Lyu, Jinhu Wang,  
Kazutoshi Tokunaga, Gang Yao, Laima Luo, and Yucheng Wu .....1947
- Corrosion behavior of refractory metals in liquid lead at 1000 °C for 1000 h  
Zunqi Xiao, Jing Liu, Zhizhong Jiang, and Lin Luo .....1954
- Corrosion behavior and mechanism of CLAM and 316L steels in flowing Pb–17Li alloy under magnetic field  
Zunqi Xiao, Jing Liu, Zhizhong Jiang, Lin Luo, and Qunying Huang .....1962
- Effects of pulsed laser surface remelting on microstructure, hardness and lead-bismuth corrosion behavior of a ferrite/martensitic steel  
Hao Wang, Qian Yuan, Linjiang Chai, Ke Zhao, Ning Guo, Jun Xiao, Xing Yin, Bin Tang, Yuqiong Li, and Shaoyu Qiu .....1972
- Experimental evaluation of fuel rod pattern analysis in fuel assembly using Yonsei single-photon emission computed tomography (YSECT)  
Hyung-joo Choi, Bo-Wi Cheon, Min Kyu Baek, Heejun Chung, Yong Hyun Chung, Sei Hwan You, Chul Hee Min, and Hyun Joon Choi .....1982

### Nuclear Fuel Cycle and Radioactive Waste Management

- Hydrothermal synthesis, structure and sorption performance to cesium and strontium ions of nanostructured magnetic zeolite composites  
Artur Dran'kov, Oleg Shichalin, Evgeniy Papynov, Alexey Nomerovskii, Vitaliy Mayorov, Vladimir Pechnikov, Andrei Ivanets, Igor Buravlev, Sofiya Yarusova, Alexey Zavjalov, Aleksey Ognev, Valeriya Balybina, Aleksey Lembikov, Ivan Tananaev, and Nikolay Shapkin .....1991
- Plutonium mass estimation utilizing the ( $\alpha$ ,n) signature in mixed electrochemical samples  
Stephen N. Gilliam, Jamie B. Coble, and Braden Goddard .....2004

### Nuclear I&C

- Development of a method for securing the operator's situation awareness from manipulation attacks on NPP process data  
Chanyoung Lee, Jae Gu Song, Cheol Kwon Lee, and Poong Hyun Seong .....2011
- Multi-channel analyzer based on a novel pulse fitting analysis method  
Qingshan Wang, Xiongjie Zhang, Xiangting Meng, Bao Wang, Dongyang Wang, Pengfei Zhou, Renbo Wang, and Bin Tang .....2023
- Fault injection and failure analysis on Xilinx 16 nm FinFET Ultrascale+ MPSoC  
Weitao Yang, Yonghong Li, and Chaohui He .....2031
- Empirical estimation of human error probabilities based on the complexity of proceduralized tasks in an analog environment  
Jinkyun Park, Hee Eun Kim, and Inseok Jang .....2037
- Uncertainty quantification of the power control system of a small PWR with coolant temperature perturbation  
Xiaoyu Li, Chuha Li, Yang Hu, Yongqi Yu, Wenjie Zeng, and Haibiao Wu .....2048

# Contents

Adaptive undervoltage protection scheme for safety bus in nuclear power plants Choong-koo Chang .....	2055
<b>Nuclear Policy, Economics and Human Resource Development</b>	
The relationship between public acceptance of nuclear power generation and spent nuclear fuel reuse: Implications for promotion of spent nuclear fuel reuse and public engagement Seungkook Roh and Dongwook Kim .....	2062
<b>Nuclear Safety</b>	
Graded approach to determine the frequency and difficulty of safety culture attributes: The F-D matrix Jeeyea Ahn, Byung Joo Min, and Seung Jun Lee .....	2067
Theoretical simulation on evolution of suspended sodium combustion aerosols characteristics in a closed chamber Sujatha Pavan Narayanam, Amit Kumar, Usha Pujala, Subramanian V., Srinivas C.V., Venkatesan R., Athmalingam S., and Venkatraman B. ....	2077
Theoretical approach for uncertainty quantification in probabilistic safety assessment using sum of lognormal random variables Gyun Seob Song and Man Cheol Kim .....	2084
Coupled irradiation-thermal-mechanical analysis of the solid-state core in a heat pipe cooled reactor Yugao Ma, Jiusong Liu, Hongxing Yu, Changqing Tian, Shanfang Huang, Jian Deng, Xiaoming Chai, Yu Liu, and Xiaoqiang He .....	2094
<b>Nuclear Structural Analysis /Plant Management &amp; Maintenance</b>	
An improved regularized particle filter for remaining useful life prediction in nuclear plant electric gate valves Ren-yi Xu, Hang Wang, Min-jun Peng, and Yong-kuo Liu .....	2107
Numerical evaluation of hypothetical core disruptive accident in full-scale model of sodium-cooled fast reactor Zhihong Guo, Xiaodong Chen, and Guoqing Hu .....	2120
Physical protection system vulnerability assessment of a small nuclear research reactor due to TNT- shaped charge impact on its reinforced concrete wall Jee Hoon Moo, Sunil S. Chirayath, and Sung Gook Cho .....	2135
Beyond design basis seismic evaluation of underground liquid storage tanks in existing nuclear power plants using simple method Shen Wang .....	2147
The optimum steel fiber reinforcement for prestressed concrete containment under internal pressure Zhi Zheng, Ye Sun, Xiaolan Pan, Chunyang Su, and Jingchang Kong .....	2156
An investigation into the thermo-elasto-hydrodynamic effect of notched mechanical seals Xiangkai Meng, Yujie Qiu, Yi Ma, and Xudong Peng .....	2173
Thermal stress intensity factor solutions for reactor pressure vessel nozzles Si-Hwa Jeong, Kyung-Seok Chung, Wan-Jun Ma, Jun-Seog Yang, Jae-Boong Choi, and Moon Ki Kim .....	2188

## Radiation Application

- Radiation tolerance of a small COTS single board computer for mobile robots  
*Andrew West, Jordan Knapp, Barry Lennox, Steve Walters, and Stephen Watts* .....2198
- Super-spatial resolution method combined with the maximum-likelihood expectation maximization (MLEM) algorithm for alpha imaging detector  
*Guna Kim, Ilhan Lim, Kanghyon Song, and Jong-Guk Kim* .....2204
- Performance prediction of gamma electron vertex imaging (GEVI) system for interfractional range shift detection in spot scanning proton therapy  
*Sung Hun Kim, Jong Hwi Jeong, Youngmo Ku, Jaerin Jung, and Chan Hyeong Kim* .....2213
- Research on the optimization method for PGNA system design based on Signal-to-Noise Ratio evaluation  
*JiaTong Li, WenBao Jia, DaQian Hei, Zeen Yao, and Can Cheng* .....2221

## Radiation protection

- Assessment of natural radionuclides and heavy metals contamination to the environment: Case study of Malaysian unregulated tin-tailing processing industry  
*Muhammad Abdullah Rahmat, Aznan Fazli Ismail, Nursyamimi Diyana Rodzi, Eli Syafiqah Aziman, Wan Mohd Razi Idris, and Tukimat Lihan* .....2230
- Geoinformation decision support system for remediation of the  $^{137}\text{Cs}$  contaminated agricultural lands after the Chernobyl NPP accident  
*Igor Evgenievich Titov, Viktor Vladimirovich Krechetnikov, Rena Aleksandrovna Mikailova, and Aleksei Valerievich Panov* .....2244
- Enhancement and optimization of gamma radiation shielding by doped nano HgO into nanoscale bentonite  
*Elhassan A. Allam, Rehab M. El-Sharkawy, Atef El-Taher, E.R. Shaaban, RedaElsaman, E. El Sayed Massoud, and Mohamed E. Mahmoud* .....2253

## Thermal Hydraulics

- Conceptual design of a copper-bonded steam generator for SFR and the development of its thermal-hydraulic analyzing code  
*Sunghyuk Im, Yohan Jung, Jonggan Hong, and Sun Rock Choi* .....2262
- Investigation of subcooled boiling wall closures at high pressure using a two-phase CFD code  
*Yazan Alatrash, Yun Je Cho, Chul-Hwa Song, and Han Young Yoon* .....2276
- Application of the machine learning technique for the development of a condensation heat transfer model for a passive containment cooling system  
*Dong Hyun Lee, Jee Min Yoo, Hui Yung Kim, Dong Jin Hong, Byong Jo Yun, and Jae Jun Jeong* .....2297
- The effects of activated cooler power on the transient pressure decay and helium mixing in the PANDA facility  
*R. Kapulla, S. Paranjape, M. Fehlmann, S. Suter, U. Doll, and D. Paladino* .....2311
- Numerical study on CMT boron replenishment strategy for an AP1000 nuclear power unit  
*Hong Wang, Miao Zhang, Jialong Li, and Junpeng Wang* .....2321

## Technical Notes

### Nuclear Fuel and Reactor Materials

- Electrochemical corrosion study on base metals used in nuclear power plants in the HyBRID process for chemical decontamination  
*Sung-Wook Kim, Sang-Yoon Park, Chang-Hyun Roh, Ji-Hyung Shim, and Sun-Byeong Kim* .....2329

### Nuclear Physics, Fusion, and Laser Technology

- Estimation of the neutron production of KSTAR based on empirical scaling law of the fast ion stored energy and ion density under NBI power and machine size upgrade  
*Jong-Gu Kwak and S.C. Hong* .....2334
