## Review Article

### Nuclear I&C

- The evolution of the Human Systems and Simulation Laboratory in nuclear power research  
*Anna Hall, Jeffrey C. Joe, Tina M. Miyake, and Ronald L. Boring* ..... 801

## Original Articles

### Nuclear I&C

- RNN-based integrated system for real-time sensor fault detection and fault-informed accident diagnosis in nuclear power plant accidents  
*Jeonghun Choi and Seung Jun Lee* ..... 814
- Research on diagnosis method of centrifugal pump rotor faults based on IPSO-VMD and RVM  
*Liang Dong, Zeyu Chen, Runan Hua, Siyuan Hu, Chuanhan Fan, and xingxin Xiao* ..... 827
- Strategy to coordinate actions through a plant parameter prediction model during startup operation of a nuclear power plant  
*Jae Min Kim, Junyong Bae, and Seung Jun Lee* ..... 839
- Energy-saving optimization on active disturbance rejection decoupling multivariable control  
*Da-Min Ding, Hai-Ma Yang, Jin Liu, Da-Wei Zhang, and Xiao-Hui Jiang* ..... 850
- Performance measurement of safety-critical systems based on ordinary differential equations and Petri nets: A case study of nuclear power plant  
*Nand Kumar Jyotish, Lalit Kumar Singh, and Chiranjeev Kumar* ..... 861
- Analysis of revised regulatory guidance on electromagnetic interference qualification for nuclear safety  
*In Beom Ahn, Jaeyul Choo, Jae Yoon Park, Hyunchul Ku, and Kyeong-Sik Min* ..... 870

### Nuclear Fuel Cycle and Radioactive Waste Management

- Statistical analysis of effects of test conditions on compressive strength of cement solidified radioactive waste  
*Hyeongjin Byeon and Jaeyeong Park* ..... 876

### Nuclear Fuel and Reactor Materials

- Assessment of INSPYRE-extended fuel performance codes against the SUPERFACT-1 fast reactor irradiation experiment  
*L. Luzzi, T. Barani, B. Boer, A. Del Nevo, M. Lainet, S. Lemehov, A. Magni, V. Marelle, B. Michel, D. Pizzocri, A. Schubert, P. Van Uffelen, and M. Bertolus* ..... 884
- First-principles investigations on helium behaviors in oxide-dispersion- strengthened nickel alloys with Hf additions  
*Yiren Wang, Fan Jia, and Yong Jiang* ..... 895
- Raman spectroscopy of eutectic melting between boride granule and stainless steel for sodium-cooled fast reactors  
*Hirofumi Fukai, Masahiro Furuya, and Hidemasa Yamano* ..... 902

### Nuclear Policy, Economics, and Human Resource Development

- A framework of examining the factors affecting public acceptance of nuclear power plant: Case study in Saudi Arabia  
*Salman M. Alzahrani, Anas M. Alwafi, and Salman M. Alshehri* ..... 908

## Nuclear Physics, Fusion, and Laser Technology

Degradation of thin carbon-backed lithium fluoride targets bombarded by 68 MeV  $^{17}\text{O}$  beams  
Y.H. Kim, B. Davids, M. Williams, K.H. Hudson, S. Upadhyayula, M. Alcorta, P. Machule, N.E. Esker,  
C.J. Griffin, J. Williams, D. Yates, A. Lennarz, C. Angus, G. Hackman, D.G. Kim, J. Son, J. Park, K. Pak, and  
Y.K. Kim..... 919

Electromagnetic-thermal two-way coupling analysis and application on helium-cooled solid blanket  
Kefan Zhang, Shuai Wang, and Hongli Chen..... 927

Suppression of stray electrons in the negative ion accelerator of CRAFT NNBI test facility  
Yuwen Yang, Jianglong Wei, Junwei Xie, Yuming Gu, Yahong Xie, and Chundong Hu..... 939

## Nuclear Structural Analysis /Plant Management & Maintenance

Experimental investigation of a method for diagnosing wall thinning in an artificially thinned carbon  
steel elbow based on changes in modal characteristics  
Byunyoung Chung, Jonghwan Kim, Daesic Jang, Sunjin Kim, and Youngchul Choi..... 947

Insights from an OKMC simulation of dose rate effects on the irradiated microstructure of RPV model  
alloys  
Jianyang Li, Chonghong Zhang, Ignacio Martin-Bragado, Yitao Yang, and Tieshan Wang..... 958

An improved time-domain approach for the spectra-compatible seismic motion generation considering  
intrinsic non-stationary features  
Feng Cheng, Jianbo Li, Zhixin Ding, and Gao Lin ..... 968

## Nuclear Safety

Sensitivity analysis of failure correlation between structures, systems, and components on system risk  
Seunghyun Eem, Shinyoung Kwag, In-Kil Choi, and Daegi Hahm..... 981

Investigation of aerosol resuspension model based on random contact with rough surface  
Liwen He, Lili Tong, and Xuewu Cao ..... 989

Study on the influence of flow blockage in severe accident scenario of CAP1400 reactor  
Pengcheng Gao, Bin Zhang, Jishen Li, Fan Miao, Shaowei Tang, Sheng Cao, Hao Yang, and  
Jianqiang Shan..... 999

## Radiation Application

Development of a muon detector based on a plastic scintillator and WLS fibers to be used for muon  
tomography system  
Chanwoo Park, Kyu Bom Kim, Min Kyu Baek, In-soo Kang, Seongyeon Lee, Yoon Soo Chung,  
Heejun Chung, and Yong Hyun Chung .....1009

System-on-chip single event effect hardening design and validation using proton irradiation  
Weitao Yang, Yang Li, Gang Guo, Chaohui He, and Longsheng Wu .....1015

Measuring and unfolding fast neutron spectra using solution-grown trans-stilbene scintillation detector  
Nguyen Duy Quang, HongJoo Kim, Phan Quoc Vuong, Nguyen Duc Ton, Uk-Won Nam, Won-Kee Park,  
JongDae Sohn, Young-Jun Choi, SungHwan Kim, SukWon Youn, and Sung-Joon Ye .....1021

Monte-Carlo simulation for detecting neutron and gamma-ray simultaneously with CdZnTe half-  
covered by gadolinium film  
J. Byun, J. Seo, Y. Kim, J. Park, K. Shin, W. Lee, K. Lee, K. Kim, and B. Park .....1031

# Contents

Assessment of neutron-induced activation of irradiated samples in a research reactor Ildikó Harsányi, András Horváth, Zoltán Kis, Katalin Gmélíng, Daria Jozwiak-Niedzwiedzka, Michal A. Glinicki, and László Szentmiklósi .....	1036
Flexible liquid light-guide-based radiation sensor with LaBr <sub>3</sub> :Ce scintillator for remote gamma-ray spectroscopy Jae Hyung Park, Siwon Song, Seunghyeon Kim, Taeseob Lim, Jinhong Kim, and Bongsoo Lee .....	1045
<b>Radiation Protection</b>	
Full spectrum estimation of helicopter background and cosmic gamma-ray contribution for airborne measurements Lukáš Kotík and Marcel Ohera .....	1052
Lead-free inorganic metal perovskites beyond photovoltaics: Photon, charged particles and neutron shielding applications Srilakshmi Prabhu, Dhanya Y. Bharadwaj, S.G. Bubbly, and S.B. Gudennavar .....	1061
<b>Reactor Physics</b>	
On-the-fly energy release per fission model in STREAM with explicit neutron and photon heating Nhan Nguyen Trong Mai, Woonghee Lee, Kyeongwon Kim, Bamidele Ebiwonjumi, Wonkyeong Kim, and Deokjung Lee .....	1071
Analyses of on-the-fly generation of spectral superhomogenization factors for multigroup whole core calculation employing pin-wise slowing-down solutions Seungug Jae and Han Gyu Joo .....	1084
Criticality analysis of pyrochemical reprocessing apparatuses for mixed uranium-plutonium nitride spent nuclear fuel using the MCU-FR and MCNP program codes P.A. Kizub, A.I. Blokhin, P.A. Blokhin, E.F. Mitenkova, N.A. Mosunova, V.A. Kovrov, A.V. Shishkin, Yu.P. Zaikov, and O.R. Rakhmanova .....	1097
<b>Thermal Hydraulics</b>	
Experimental study on single- and two-phase flow behaviors within porous particle beds Jong Seok Oh, Sang Mo An, Hwan Yeol Kim, and Dong Eok Kim .....	1105
Fluidelastic instability of a curved tube array in single phase cross flow Kang-Hee Lee, Heung-Seok Kang, Du-Ho Hong, and Jong-In Kim .....	1118
Investigation of condensation with non-condensable gas in natural circulation loop for passive safety system Jin-Hwa Yang, Tae-Hwan Ahn, Hwang Bae, and Hyun-Sik Park .....	1125
Multi-scale heat conduction models with improved equivalent thermal conductivity of TRISO fuel particles for FCM fuel Mouhao Wang, Shanshan Bu, Bing Zhou, Zhenzhong Li, and Deqi Chen .....	1140
Two-fluid modelling for poly-disperse bubbly flows in vertical pipes: Analysis of the impact of geometrical parameters and heat transfer Andrea Allio, Antonio Buffo, Daniele Marchisio, and Laura Savoldi .....	1152

## Technical Note

### Reactor Physics

- Loading pattern design and economic evaluation for 24-month cycle operation of OPR-1000 in Korea  
*Jeongmin Lee and Hyun Chul Lee* .....1167

### Thermal Hydraulics

- Hydraulic performance and flow resistance tests of various hydraulic parts for optimal design of a reactor coolant pump for a small modular reactor  
*Byeonggeon Bae, Jaeho Jung, and Je Yong Yu* .....1181

### Nuclear Fuel Cycle and Radioactive Waste Management

- Investigation of the various properties of several candidate additives as buffer materials  
*Gi-Jun Lee, Seok Yoon, Taehyun Kim, and Seeun Chang* .....1191
