## Foreword

Special Issue on ICI2011

<i>Poong Hyun Seong</i> .....	iii
-------------------------------	-----

## Papers

### Track 1: International Symposium on Future I&C for Nuclear Power Plants

Prediction of Diametral Creep for Pressure Tubes of a Pressurized Heavy Water Reactor Using Data Based Modeling

<i>Jae Yong Lee and Man Gyun Na</i> .....	355
---	-----

Design of a FPGA Based ABWR Feedwater Controller

<i>HsuanHan Huang, HwaiPwu Chou, and Chaung Lin</i> .....	363
---	-----

Design of a Load Following Controller for APR+ Nuclear Plants

<i>Sim Won Lee, Jae Hwan Kim, Man Gyun Na, Dong Su Kim, Keuk Jong Yu, and Han Gon Kim</i> .....	369
---	-----

### Track 2: Cognitive Systems Engineering in Process Control

Operator Behaviors Observed in Following Emergency Operating Procedure under a Simulated Emergency

<i>Sun Yeong Choi and Jinkyun Park</i> .....	379
--	-----

Prejob Briefing using Process Data and Tag-Out / Line-Up Data on 2D Drawings

<i>FRANÇOIS Dionis, RIBIERE Alain, AUBIN Renaud, and CATTEAU Romain</i> .....	387
---	-----

Monitoring Severe Accidents Using AI Techniques

<i>Young Gyu No, Ju Hyun Kim, Man Gyun Na, Dong Hyuk Lim, and Kwang-Il Ahn</i> .....	393
--	-----

### Tack 3: International Symposium on Symbiotic Nuclear Power Systems

Reliability Estimation for a Digital Instrument and Control System

<i>YANG Yaguang and SYDNOR Russell</i> .....	405
--	-----

Estimating the Operator's Performance Time of Emergency Procedural Tasks Based on a Task Complexity Measure

<i>Wondea Jung and Jinkyun Park</i> .....	415
---	-----

Fault Detection Coverage Quantification of Automatic Test Functions of Digital I&C System in NPPs

<i>Jong Gyun Choi, Seung Jun Lee, Hyun Gook Kang, Seop Hur, Young Jun Lee, and Seung Cheol Jang</i> .....	421
---	-----

# Contents

---

## **Track 4: General Nuclear Engineering**

Critical Heat Flux Enhancement in Flow Boiling of  $\text{Al}_2\text{O}_3$  and SiC Nanofluids under Low Pressure and Low Flow Conditions

*Seung Won Lee, Seong Dae Park, Sarah Kang, Seong Man Kim, Han Seo, Dong Won Lee, and In Cheol Bang* ..... 429

## Special Issue on ICI2011

ICI2011 was held in Daejeon, Korea, August 21-25, 2011. ICI2011 had three embedded meetings: the International Symposium on Future Instrumentation and Control for Nuclear Power Plants 2011 (ISOFIG2011); the Cognitive Systems Engineering in Process Control 2011 (CSEPC2011); and the International Symposium on Symbiotic Nuclear Power Systems 2011 (ISSNP2011). A track was assigned for each embedded meeting: Track 1 for ISOFIG2011, Track 2 for CSEPC2011 and Track 3 for ISSNP2011. Track 4 was separately assigned for the general nuclear engineering papers. We had about 100 full papers presented in the meeting. Out of these, some papers were recommended by session chairs to be published as journal papers. Some of those were sent to IJNS (International Electronic Journal of Nuclear Safety and Simulation) which is published by Harbin Engineering University in China and Symbio Community Forum in Japan. Ten papers are being published in this Journal, NET (Nuclear Engineering and Technology), after formal reviews by world experts. Out of these ten papers, three are from Track 1, three are from Track 2, three are from Track 3, and one is from Track 4. As the General Chair of the ICI2011 and the Guest Editor for this special issue of NET for the ICI2011, I would like to thank the authors and reviewers of the papers for their great contribution to this special issue.

April 17, 2012

Poong Hyun Seong  
Professor,  
Department of Nuclear and Quantum Engineering,  
Korea Advanced Institute of Science and Technology  
General Chair, ICI-2011  
Guest Editor, Special Issue of NET for the ICI-2011
