## “ Emerging Issues in the PSA ”

Current Issues on PRA Regarding Seismic and Tsunami Events at Multi Units and Sites Based on Lessons Learned from Tohoku Earthquake/Tsunami <i>Katsumi Ebisawa, Masatoshi Fujita, Yoko Iwabuchi, and Hideharu Sugino</i> .....	437
Efforts to Progress in the Harmonization of L2 PSA Development and Their Applications in Europe. Status of Activities and Perspectives after the Fukushima Accident <i>E. Raimond</i> .....	453
Development of an Integrated Risk Assessment Framework for Internal/External Events and All Power Modes <i>Joon-Eon Yang</i> .....	459
Reliability Analysis of Digital Systems in a Probabilistic Risk Analysis for Nuclear Power Plants <i>Stefan Authén and Jan-Erik Holmberg</i> .....	471

## Papers

### Nuclear Fuel Cycle and Radioactive Waste Management

Pyroprocess Waste Disposal System Design and Dose Calculation <i>Donghak Kook, Dong-Keun Cho, Minsoo Lee, Jongyoul Lee, Heuijoo Choi, and Yongsoo Kim</i> .....	483
--	-----

### Nuclear Fuel and Reactor Materials

Nano-structural and Nano-chemical Analysis of Ni-base Alloy/low Alloy Steel Dissimilar Metal Weld Interfaces <i>Kyoung Joon Choi, Sang Hun Shin, Jong Jin Kim, Ju Ang Jung, and Ji Hyun Kim</i> .....	491
--	-----

### Nuclear Structural Analysis and Plant Management & Maintenance

A Study on Modal Characteristics of Flow Skirt USING Effective Young's Modulus <i>Myung Jo Jhung and Yong Beum Kim</i> .....	501
Development and Evaluation of a Temporary Placement and Conveyance Operation Simulation System Using Augmented Reality <i>Weida Yan, Shuhei Aoyama, Hirotake Ishii, Hiroshi Shimoda, Tran T. Sang, Solhaug Lars Inge, Toppe Aleksander Lygren, Johnsen Terje, and Masanori Izumi</i> .....	507
Effect of Heat Curing Methods on the Temperature History and Strength Development of Slab Concrete for Nuclear Power Plant Structures in Cold Climates <i>Gun-Cheol Lee, Min-Cheol Han, Dae-Hyun Baek, and Kyung-Taek Koh</i> .....	523

# Contents

---

## Technical Note

### Nuclear Safety

Comparison of the Decay Heat Removal Systems in the KALIMER-600 and DSFR <i>Kwi-Seok Ha and Hae-Yong Jeong</i> .....	535
---	-----

### Nuclear Fuel and Reactor Materials

Relationship between Radiation Inducted Yield Strength Increment and Charpy Transition Temperature Shift in Reactor Pressure Vessel Steels of Korean Nuclear Power Plants <i>Gyeong-Geun Lee, Yongbok Lee, and Junhyun Kwon</i> .....	543
---	-----

### Radiation Applications and Shielding

Phase-B Pre-simulation Using Boron and Gadolinium as Poison in the Moderator System for Wolsong-1 <i>Sung-Min Kim, Hyeong-Taek Kim, Jim Donnelly, and Guy Marleau</i> .....	551
--	-----
