Since its inception in 1962, RSICC has evolved into one of the world's leading resources for a broad range of the best available nuclear computational tools and services. RSICC software and data collections provide in-depth coverage of radiation transport and safety topics encompassing, but not limited to:

Physics of the interaction of radiation with matter	Shields and shipping cask design
Radiation production and sources	Radiation waste management
Criticality safety	Radiological safety and assessment
Radiation protection and shielding	Atmospheric dispersion and environmental dose
Radiation detectors and measurements	Radiation dose in medical applications
Shielding materials properties	Space shielding applications

Requesting Source versions of MCNP® or SCALE

Individuals that need access to the SOURCE version of MCNP® or SCALE should submit a request for the executable version of the desired package and include a justification in either the end use statement or in the comments of their request that explains why the SOURCE version is needed. Individuals that fail to provide this information will only be provided the executable version of the code.

COVID Related Recommendations

Due to the continued situation regarding the COVID, we realize that many of our customers, like the RSICC team, are working from home and are not physically at their institution. However, due to U.S. Federal regulations, RSICC is required to validate the information of our customers and the organizations with which our customers are affiliated. Hence, to minimize confusion, we recommend that our customers take the following steps when registering with RSICC and requesting software.

- RSICC's customers must provide an email address associated with their organization. University students should provide an email address associated with their university, and others should provide an email address associated with their organization. Use of a private email address is strongly discouraged as this results in additional delays in processing the registration and/or request.
- RSICC's customers must provide the physical address of the organization with which they are affiliated. This address is required to validate the organization and for screening the organization as required by the U.S. Federal government. If you are not physically located at the organization, you can provide a comment in the registration and/or request

COVID Related Recommendations

Due to the continued situation regarding the COVID, we realize that many of our customers, like the RSICC team, are working from home and are not physically at their institution. However, due to U.S. Federal regulations, RSICC is required to validate the information of our customers and the organizations with which our customers are affiliated. Hence, to minimize confusion, we recommend that our customers take the following steps when registering with RSICC and requesting software.

- RSICC's customers must provide an email address associated with their organization. University students should provide an email address associated with their university, and others should provide an email address associated with their organization. Use of a private email address is strongly discouraged as this results in additional delays in processing the registration and/or request.
- RSICC's customers must provide the physical address of the organization with which they are affiliated. This address is required to validate the organization and for screening the organization as required by the U.S. Federal government. If you are not physically located at the organization, you can provide a comment in the registration and/or request

RSICC Ordering Procedure

Step 4 of 6
Next Step

***** Attention MCNP Users *****

Due to DOE jurisdiction over MCNP/MCNPX and its derivatives, distribution of software containing source code is restricted/limited. Non-US Citizens are strongly urged to request the "executables only" version of the software. Note: We expect turnaround time for foreign national source code requests to average 30-45 working days. Additional justification for access to the source code will be required by DOE.

DOE jurisdiction guidelines currently exist for the following software: MCNP6.2, MCNP6.2-EXE, MCNP-DSP, MCNPX-POLIMI, MCUNED, MCNPVISED, and MRIPP.

An "executables only" version of MCNP6.2 can be requested by selecting: MCNP6.2-EXE C850MNYCP01 EXE ONLY.

Individuals that need access to the SOURCE version of MCNP® should submit a request for the EXECUTABLE version of MCNP and include a justification in the comments of the request that explains why the SOURCE version is needed. Individuals that fail to provide this information will only be provided the executable version of the code.

***** Attention SCALE Users *****

Individuals that need access to the SOURCE version of SCALE should submit a request for the EXECUTABLE version of SCALE and include a justification in the comments of the request that explains why the SOURCE version is needed. Individuals that fail to provide this information will only be provided the executable version of the code.

***** Attention RELAP Users *****

코드 배포에 대한 안내

MCNP, RELAP, SCALE 등의 코드는 전략물자로 미국 시민권이 없는 사람의 경우 DOE에서 심사를 하며 배포를 하고 있음

MCNP 심사기간의 경우 실행파일 패키지는 약 1-2주일, 소스코드 패키지는 약 1-1.5달이 소요되며, 소스코드를 요청한 경우 추가 서류 제출을 요구 받을 수 있음

MPI를 이용한 병렬처리 필요 시 소스코드가 필요함

페이지를 아래로 스크롤하여 요청할 코드 선택

RSICC Ordering Procedure

4. Select Codes to Request

Step 4 of 6
[Next Step](#)

***** Attention MCNP Users *****

Due to DOE jurisdiction over MCNP/MCNPX and its derivatives, distribution of software containing source code is restricted/limited. Non-US Citizens are strongly urged to request the "executables only" version of the software. Note: We expect turnaround time for foreign national source code requests to average 30-45 working days. Additional justification for access to the source code will be required by DOE.

DOE jurisdiction guidelines currently exist for the following software: MCNP6.2, MCNP6.2-EXE, MCNP-DSP, MCNPX-POLIMI, MCUNED, MCNPVISED, and MRIPP.

An "executables only" version of MCNP6.2 can be requested by selecting: MCNP6.2-EXE C850MNYCP01 EXE ONLY.

Individuals that need access to the SOURCE version of MCNP® should submit a request for the EXECUTABLE version of MCNP and include a justification in the comments of the request that explains why the SOURCE version is needed. Individuals that fail to provide this information will only be provided the executable version of the code.

***** Attention SCALE Users *****

Individuals that need access to the SOURCE version of SCALE should submit a request for the EXECUTABLE version of SCALE and include a justification in the comments of the request that explains why the SOURCE version is needed. Individuals that fail to provide this information will only be provided the executable version of the code.

***** Attention RELAP Users *****

접속 사이트: <https://rsicc.ornl.gov/>

The screenshot shows the 'RSICC Ordering Procedure' web page, specifically 'Step 5 of 6: End Use Information'. The page header includes the RSICC logo and the Oak Ridge National Laboratory logo. A navigation bar shows the 'Software Index' with letters A through Z. A left sidebar contains links: HOME, Customer Service, Registration, Requests, Software Catalog, Software & Data, Software Catalog, Workshops, Newsletters, and Contact Us. The main content area is titled '5. End Use Information' and includes a 'Submit Request' button. A red warning message states: '***Failure to Provide Detailed Answers WILL Delay or Deny Your Request***'. Below this, a question asks 'Is this a Student request?' with radio buttons for 'Yes' (selected) and 'No', and a note '** required'. A list of required fields follows: 'Name of University' (filled with 'Hanyang University (HYU)'), 'Professor(s)', 'Professor(s) University Email', 'Student University Email', 'Course Number(s)', and 'Course Name(s)'. A text box contains instructions: '- Provide detail so your request can be reviewed. "Home work/class work" is not sufficient. - If course information is not applicable, state this and fully describe the research project.' A red note indicates that a description for MCNP6.2-EXE(C850 MNYCP 01)810 DVD Only is required if the user is a graduate or undergraduate student. The footer contains links for FAQ, ORNL Home, DOE, Site Map, and Security Notice, along with a detailed description of the RSICC's role.

사용자가 학생인 경우 “Yes” 클릭

지도교수 혹은 MCNP를 사용하는 수업의 담당교수 인적사항, 수업명 등을 입력

MCNP 코드의 사용 목적 상세히 기술 필요

- 수업의 경우 수업 내용, 수업 중 사용할 부분 등 기술
- 연구과제의 경우 과제명, 과제 수행중 사용할 부분 등 기술
- 군사, 우주 분야에 사용할 것으로 기술 시 거절 당할 가능성 있으니 참고

학생의 경우 MCNP 실행파일 패키지만 제공 배포됨

접속 사이트: <https://rsicc.ornl.gov/>

The screenshot shows the RSICC website interface. At the top, there is a header with the RSICC logo and the text "Radiation Safety Information Computational Center" and "Delivering the Best Computational Tools for Nuclear Research". To the right is the Oak Ridge National Laboratory logo. Below the header is a "Software Index" bar with letters A through Z. On the left side, there is a navigation menu with links: HOME, Customer Service, Registration Requests, Software Catalog, Software & Data, Software Catalog, Workshops, Newsletters, and Contact Us. The main content area contains a registration form for students. The form includes fields for: * Professor(s):, * Professor(s) University Email:, * Student University Email:, * Course Number(s):, and * Course Name(s):. Below these fields is a text box with instructions: "- Provide detail so your request can be reviewed. 'Home work/class work' is not sufficient. - If course information is not applicable, state this and fully describe the research project." Below this is a note: "** required Indicate if you are a graduate or undergraduate student. Then provide the course project/class description for MCNP6.2-EXE(C850 MNYCP 01)810 DVD Only". At the bottom of the form is a "Comments:" section with the text "Additional comments that do not apply to the end use information". The footer contains links: FAQ | ORNL Home | DOE | Site Map | Security Notice, and a paragraph about the RSICC's role as a Department of Energy Specialized Information Analysis Center (SIAC).

3. License 행정 비용

접속 사이트: <https://rsicc.ornl.gov/>

RSICC Cost Recovery Fee

RSICC RATES EFFECTIVE October 1, 2021

RSICC does not charge for the packages that we deliver; however, we are required by the Federal government to recoup the cost associated with our operations. This fee is based on the cost for RSICC to maintain its archive, update its archive and support customer requests and registrations. This cost includes the effort required to perform the background and export control compliance checks that are mandated by the Federal government.

The cost recovery fee for those individuals that require more extensive export control and nonproliferation reviews will be \$1188 while the cost recovery fee for those individuals that do not require the extensive reviews will be \$950. **For those individuals that are only approved for access to RSICC software on RSICC's secure cloud server the fee will be \$1746.00. These rates will be effective on October 1, 2021.**

An invoice will be sent to you via email if you are required to pay the cost recovery fee. The cost recovery fee is payable via check written on a U.S. bank, postal money order, PayPal account or any method that PayPal provides including debit and credit card. **RSICC does not accept purchase orders or wire transfers.** If payment is received via wire/bank transfer, RSICC will deny future services to both you and your organization.

MCNP는 수출 통제물자로 License 행정 비용을 지불해야 함:

- 실행파일 버전은 \$950
- 소스파일 버전은 \$1188
